OGN a Media Partner at IPTC 2024

We need to have better engagement to work together with the support of policy makers around the world

Amin H. Nasser
President & CEO of Saudi Aramco

IPTC is expected to attract more than 18,000 attendees when it returns to Dhahran Expo, Kingdom of Saudi Arabia in February 2024.

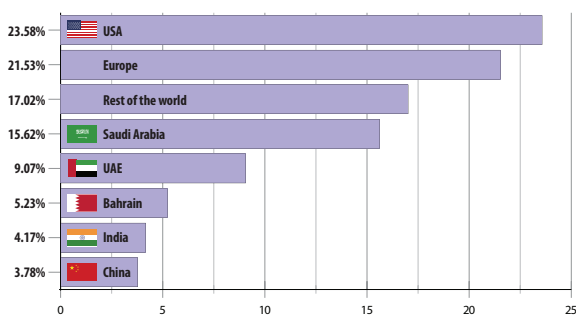

Founded in 2005, the International Petroleum Technology Conference (IPTC) continues to be a flagship multidisciplinary technical event in the Eastern Hemisphere. The knowledge, capabilities and strengths of the participating countries and the sponsoring societies' global membership are central to the success of the conference and exhibition.

IPTC is sponsored by four industry organisations and societies, the American Association of Petroleum Geologists (AAPG); the European Association of Geoscientists and Engineers (EAGE); the Society of Exploration Geophysicists (SEG); and the Society of Petroleum Engineers (SPE).

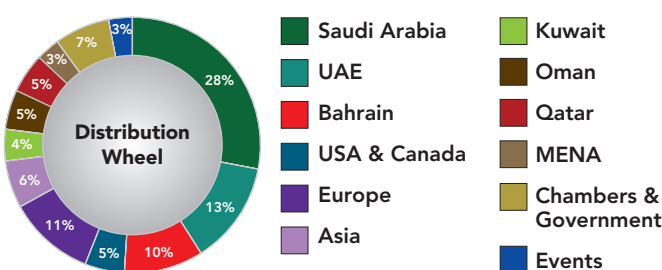

IPTC is focused on the dissemination of new and current technology, best practices and multi-disciplinary activities designed to emphasise the importance of the value chain and maximising asset value. The knowledge, capabilities and strengths of the participating countries and the sponsoring societies global membership, over the spectrum of multi-disciplinary technologies, are central to the success of the conference and the corresponding exhibition.

NASSER RINGS ALARM BELLS; TIME TO HEED WARNING?

By Ahmad Al-Khatib

AMMAN Amin Nasser, Aramco President and CEO, has once again voiced his concerns about the sustainable energy transition, this time alluding to a North-South divide and an emerging energy crisis.

The warning comes in the wake of a report from the International Energy Agency (IEA) that the world's oil reserves are being depleted faster than they are being replaced, and that the energy transition is not happening fast enough to meet the world's growing demand for oil.

Nasser, in his speech at the 2023 World Petroleum Conference (WPC) in Doha, Qatar, said: "We are not seeing the necessary investment in oil infrastructure to meet the world's growing demand for oil. We are not seeing the necessary investment in sustainable energy to replace oil. We are not seeing the necessary investment in the energy transition to meet the world's growing demand for energy."

Nasser's speech is seen as a warning to the world's oil producers and consumers to take action to ensure a stable and secure energy future. He is also seen as a warning to the world's oil consumers to take action to ensure a sustainable energy future.

Nasser's speech is also seen as a warning to the world's oil producers and consumers to take action to ensure a stable and secure energy future. He is also seen as a warning to the world's oil consumers to take action to ensure a sustainable energy future.

Aramco forays into Latam with acquisition

AMMAN Aramco has announced its intention to acquire a 100% stake in the Peruvian oil and gas company, Gas Grupa, a move that could significantly expand its operations in Latin America.

The acquisition is part of Aramco's strategy to diversify its operations and increase its production capacity. It is also seen as a move to strengthen Aramco's position in the global oil and gas market.

UAE leader in solar energy

ABU DHABI The UAE has emerged as a global leader in solar energy, with the country's renewable energy sector growing rapidly. The UAE's leadership in solar energy is seen as a key factor in its efforts to achieve its net-zero emissions goal by 2050.

The UAE's leadership in solar energy is also seen as a key factor in its efforts to diversify its economy and reduce its dependence on oil. The country's solar energy sector is expected to continue to grow in the coming years.

Bahrain leaders confirm participation at Adipee

MANAMA Bahrain's leaders have confirmed their participation at the Adipee conference, a major event in the oil and gas industry. The conference is expected to attract a large number of industry leaders and experts, and is seen as an important platform for discussing the challenges and opportunities facing the oil and gas sector.

Bahrain's participation at the Adipee conference is seen as a sign of the country's commitment to the oil and gas industry and its role in the global energy market. It is also seen as an opportunity for Bahrain to showcase its achievements in the sector and to build on its reputation as a leading oil and gas producer.

IPTC 2022 in Numbers

- 13,231 – Total Attendees
- 2,690 – Companies
- 7,099 Sqm – Exhibition Area
- 74 – Countries
- 5,841 – Delegates
- 5,384 – Visitors
- 1,351 – Exhibitors

Oil and gas is here to stay. We need the brightest minds in the industry, and we need to continue to attract young and talented people, so they take us to the next level.

Nasir K. Al-Naimi
Senior Vice President, Upstream Saudi Aramco
